Enabling Flash- Content Settings

How to enable Flash for Lincoln Learning Solutions content

1. Open a new tab in your Chrome browser

2. Copy the following URL into the address bar: chrome://settings/contentExceptions#plugins and press **Enter**
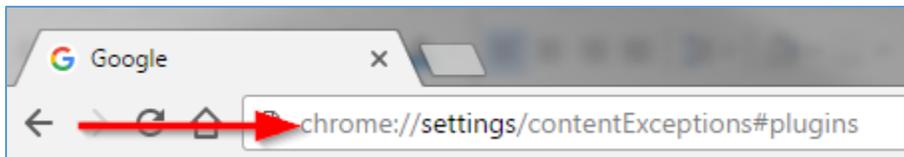

3. Add the following site URLs to Chrome's Flash exceptions list, by entering each URL into the entry box located at the bottom of the setting window.
    a. [*.]lincolninteractive.com
    b. [*.]lincolninteractive.org
    c. [*.]lincolnlearningsolutions.org
    d. [*.]littlelincoln.org
    e. [*.]agilixbuzz.com
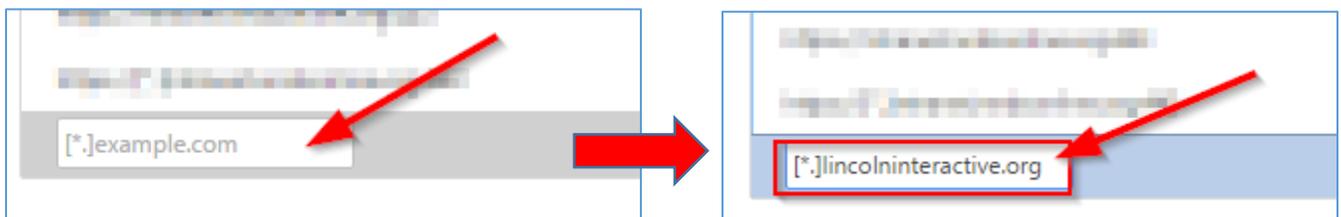

- **Note:** please make sure to include the wildcard [*.]

4. Once you have completed entering the URLs, click **Done** <u>twice</u> to close the settings windows.

5. Close and restart Chrome.
