This three day training will equip educators with the knowledge and expertise needed to implement and share the **SIOP model**, as well as a deeper understanding of its effectiveness in the classroom with English Language Learners (ELs) and other students.

Content includes the research-based methodology of sheltered instruction for ELs and the eight aspects of sheltered instruction design, in addition to the practice and evaluation of sheltered Instruction lessons. This interactive training allows teachers to learn and practice ways to plan and implement lessons that allow English Learners to access content standards as they develop English language proficiency.

Presenter: Jill Kramer, Educational Consultant, ESC of Central Ohio

Audience: This workshop is for K-12 teachers, EL specialists, administrators, instructional coaches, and other interested educators.
