

# Data 2.0

Based on the work of Paul Bambrick-Santoyo we will explore together the Data 2.0 framework to increase student academic proficiency by closing achievement gaps and getting all students on the road to success.

The framework includes three main elements:

- Assess (set the road map for learning)
- Analyze (identify why students struggle)
- Act (teach more effectively what students need)

## *Presented By:*

Michael Coury, M.Ed.  
Curriculum Consultant  
ESC of Northeast Ohio

Kelly Stukus, M.Ed.  
Curriculum Consultant
