

District Innovation and Student Success

Program and Service Informational Meeting

February 5, 2019 or March 5, 2019

Innovative districts guide students to be design thinkers and problem solvers. However, this requires administrators to drive the district and building cultures that nurture how administrators, teachers and students interact and learn. The ESC of Northeast Ohio has multiple resources to support Superintendents and other administrators in transforming their district. The Focus 3 model, in conjunction with other strategies, will guide administrators through this process.

Please attend one of two informational meetings to learn more about how the ESC can support your efforts in:

- Focus 3: The R Factor
- Design learning
- Creative thinking institute
- Career readiness
- Life competencies
- Performance based assessment

Times: 11:00 AM—11:45 PM

Location: Educational Service Center of Northeast Ohio
6393 Oak Tree Blvd., Independence, 44131

Registration: www.escneo.org (click on Professional Development and then Calendar of Events)
