Strategies that Inspire Gifted Students

Presented by Kathy Frazier and Deborah Walker
Gifted educators, authors, & founders of Touching the Future Today

In this workshop series, participants will acquire mindsets enabling them to create integrated thematic units, develop skills promoting the 4Cs through engaging strategies, produce projects, and design simulations that actively involve student participation and higher level thinking. Learn strategies to differentiate the curriculum to meet the academic and social emotional needs of gifted students.

Workshops will benefit all K-12 educators, gifted specialists, teachers of the arts and other disciplines.

EARN 6.0 GIFTED PD HOURS FOR EACH WORKSHOP

Oct. 27, 2020 – Workshop 1: Let's Get Connected! Creating Thematic and Interdisciplinary Units

Courage, Changes, Relationships and Heroism are examples of the integrative thematic units that will be shared for lessons and unit evaluations, along with hands-on activities and projects, to provide students with an understanding of relationships between the disciplines and real world connections. Exploring real world issues will support critical thinking, advanced problem solving, and service learning. Interdisciplinary unit planning also will be explored as an alternate strategy to connect disciplines through common themes.

Dec. 7, 2020 – Workshop 2: Re-Imagining Your Teaching through Differentiation

This workshop includes strategies, resources and practices to help advance the 4Cs into classroom practices providing students with skills needed for their futures. Learn practical techniques to integrate the 4Cs into teaching and learning, tools for developing enhanced proficiency with technology, and methods to ensure that students are learning in a meaningful context. Techniques will include choice boards, independent study, conversation buddies, open mic, interactive technologies, and others.

Feb. 3, 2021 – Workshop 3: The Art of Teaching

Instructional scenarios and simulations are powerful instructional tools to teach content, thinking, and reasoning skills. These teaching strategies promote student-centered and constructivist learning aligned to content standards and learning tasks. Arts Integrated projects in a variety of disciplines promote creativity, literacy, numeracy and invoke multiple perspectives and modes of understanding. Participants will create a simulation to align with a content standard or topic in their discipline.

LOCATION

ESC of North East Ohio
6393 Oak Tree Blvd.
Independence, OH 44131

TIMES

Sign in 8:00—8:30 a.m.
Program 8:30 a.m.—3:30 p.m.

Online registration is required for each session.
