Join us for professional development, collaboration and conversation as we focus on the role of building leaders in successfully planning and implementing a school-wide, evidence-based, reading initiative.

#### Goals of the Network:

To empower school teams as they plan and lead a school-wide implementation of evidence-based multi-tiered reading instruction.

We will focus on the specifics: what to do, with whom, how to get the work done and how to monitor school progress toward reaching the building goals.

#### Audience:

Building principals and other school leaders who wish to improve the overall reading performance of their elementary or middle school students.
