

VIRTUAL OSCES

Ohio School Counselor Evaluation System

The Ohio Department of Education has granted permission to ESCs to redesign the Ohio School Counselor Evaluation System Training (OSCES) to make it available virtually. This online course is asynchronous and self-paced; all required coursework must be submitted within the designated 2-week session window.

In the asynchronous OSCES modules, participants will learn about the Ohio School Counselor Evaluation System. The system, which includes examples of effective practices, explains how to implement school counselor evaluations according to state law and the State Board framework. Within this system, the performance of each school counselor is evaluated based on multiple factors derived from the standards, as well as their ability to produce positive student outcomes measured by locally determined metrics.

Registration Information:

- Session Window:
10/5/20 – 10/18/20 (registration deadline 10/2/20)
- Registration must be completed through the [OH|ID](#) portal, in the Training and Registration tile.
- Search “virtual” in event name.
- Cost: \$50
