Panorama's Back-to-School Surveys

for Distance, Hybrid, or In-Person Learning in 2020-21

Survey instruments to hear from students, families, and staff during the 2020-21 school year. Get crucial feedback so that your district can quickly respond to needs across academics, social-emotional learning, and health and safety.

About the Survey Instruments

The 2020-2021 school year will look different than any other year. Not only are students, families, and staff facing a challenging learning environment (whether distance, hybrid, or in person), but they are also coping with heightened stress and trauma due to the COVID-19 pandemic and recent racial injustice events.

It will be critical to understand student, family, and staff member experiences once school is underway. How is your school community doing in today's unique school context? What do they need—academically, socially, *and* emotionally?

Since 2012, Panorama Education has helped thousands of schools elevate student, staff, and family voices to improve outcomes for over 10 million students. These new surveys—already [in use by some of the largest districts](#) in the country—are designed to gather feedback and information from students, caregivers, and educators during **distance, hybrid, or in-person learning for the 2020-21 year**.

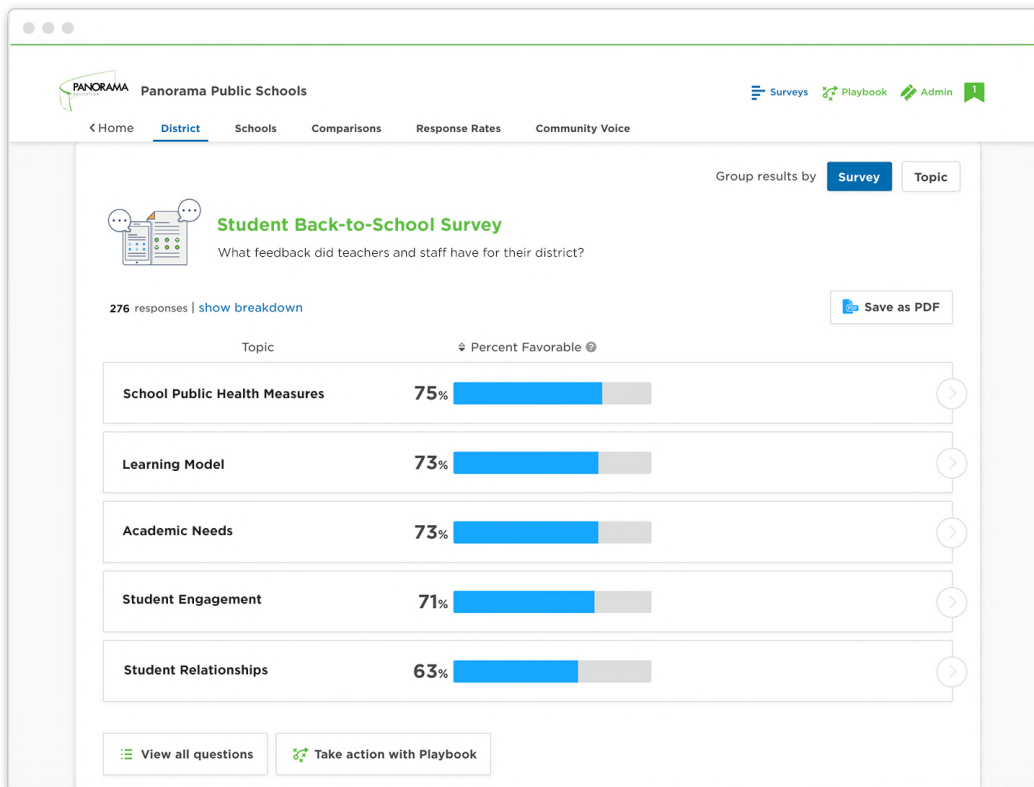

With the data, your school or district can take quick action to improve the learning environment, health and safety procedures, academic and social-emotional support systems, equity and inclusion, and more.

- 1. For Students:** Gather student perceptions of the learning environment, school public health measures, engagement with school, relationships, school cultural responsiveness, and more. Includes developmentally appropriate questions for grades 3-5 and 6-12.
- 2. For Families:** Understand what families and their children need throughout the school year. Partner with caregivers to improve the learning environment, student supports, school public health procedures, school cultural responsiveness, and more.
- 3. For Teachers and Staff:** Understand educators' perceptions of the learning environment, professional development, relationships, school public health measures, school cultural responsiveness, and more.

Panorama's distance learning surveys have been taken by tens of thousands of students, families, and teachers and staff—including at the [NYC Department of Education](#), [Indianapolis Public Schools](#), and [Ector County ISD](#).

Partnering With Panorama for Stakeholder Survey Programs

Panorama’s leading survey administration and [analytics platform](#) makes it possible to rapidly gather and take action on information from students, families, teachers, and staff. In Panorama, administrators and educators can view and disaggregate results by topic, question, demographic group, grade level, school, and more to inform priority areas and action plans.

Our team also offers expert-led [professional development](#) to build your team’s data capacity and take action on stakeholder feedback. We’ve worked with thousands of districts to navigate the challenges of building data-driven practices, creating strong academic and social-emotional support systems, and responding equitably to student needs.

About Panorama Education

Panorama Education helps educators measure how students are doing across academics, attendance, behavior, and college readiness, and then coordinate action to support each child. Panorama's platform also helps educators collect data about non-academic factors that are key to each child's success in school and in life, such as social-emotional skills, safety, and family engagement. Today, 1,500 school systems serving 10 million students partner with Panorama, including the New York City Department of Education, Dallas Independent School District, and San Francisco Unified School District.
