Shared Services
ALLIANCE

TRANSPORTATION SERVICES

Shared Services Alliance (SSA) can assist school districts with the complex task of managing transportation logistics efficiently while ensuring student safety. SSA develops customized solutions designed specifically to meet your district's unique requirements, providing practical and dependable transportation management that integrates with your educational objectives.

SSA reviews and analyzes T-1 and T-2 transportation reports to identify missed funding opportunities, capture eligible expenses, and uncover cost-saving measures—helping districts maximize state reimbursement and recover every eligible transportation dollar.

- Coaching & Mentoring
- State Reporting
- Route & Fleet Efficiency
- Contract & Training Assessment
- Budget & Staffing Review
- Operational & Compliance Review
