

Board Leadership and Strategic Planning

Shared Services Alliance (SSA) brings a wealth of experience and external perspective that can be invaluable in identifying opportunities and roadblocks for school districts. SSA can assist school districts in the areas of strategic planning, CFO/Treasurer negotiations coaching, and aligning the goals of the district leadership team.

STRATEGIC PLANNING

SSA will work with stakeholders to develop strategic plans that are comprehensive and forward-thinking. The SSA team can assist in crafting a district's vision and mission, establishing long-term goals, and developing specific strategies for implementation, evaluation, and improvement. Our process can help to align district plans and committees, enhance governance levels, increase community and voter support, and instill greater confidence in decision-making.

NEGOTIATIONS COACHING

SSA can provide tailored coaching for negotiations, leveraging our expertise to achieve favorable outcomes that align with the district's strategic objectives.

LEADERSHIP COACHING

SSA will work with the board, superintendent, and CFO/treasurer to ensure successful leadership and improved student achievement. SSA will help to identify and prioritize goals and demonstrate the effectiveness of fostering a collaborative environment for student success and district advancement.
