Wednesday, December 6, 2017

9:00-11:00 a.m.

Doors open at 8:30

Cuyahoga Community College

Westshore Campus

Health Care Simulation Center

WESTSHORE
CAMPUS

Welcome to the NorthCoast Business Advisory Network (NCBAN) of the Educational Service Center of Cuyahoga County.

This network of school administrators and business professionals convenes quarterly to share pertinent, timely information about employment and educational opportunities in the Northeast Ohio region.

Membership is FREE! Meetings are very informative and also fulfill the state mandate that requires school districts to participate in a business advisory council. Please join us!

NE Ohio is recognized as the home of world class health care and the health care industry is one of the largest employers and economic engines in the region. Developing a pipeline of employees to fill the many career opportunities available, including direct patient care, technology and cutting edge research and development is a responsibility of the educational community. Join the NCBAN as we highlight two educational institutions that are leading the way to provide awareness and training for pathways to health related careers.

Meet Apollo, the incredible high-tech human patient simulator used by medical professionals, when we convene at Tri-C's Westshore Campus, Health Care Simulator Center in Westlake where the art and science of health care meet. Utilizing the latest technology and equipment the center addresses the training needs of employees in health care occupations.

Tri-C Presenters:

Geraldine Weiser, Director of Client Business Development
Hollis Miker, Director, HealthCare Solutions
Dan Makar, Simulator Technician and Director of Business Relations

The Maple Heights Schools Medical Muse Pilot Program is for 7th and 8th grade honors science students. These students meet with medical students, universities and other health care professionals to explore, engage and learn about the paths necessary for careers in the many medical occupations available in our region.

Maple Heights Schools Presenters:

Susan Jaroscak, Director of Curriculum and Gifted Programs
Rae Smedley, Literacy Coach
Grades 7 and 8 Honors Science Students
