PRE-PROFESSIONAL INTERNSHIP MODEL
TRINITY HIGH SCHOOL**

Trinity High School, a secondary Catholic school, developed its student internship model in 2009. Named for its Executive Principal at that time, Dr. Thomas Maher, the program focuses on preparing secondary students in grades 10-12 for both college and careers through coursework and practical experience. Career paths include IT, Healthcare, and Graphics that seek to prepare students with career knowledge and employability skills.

The Pre-Professional Program is directed by Barb Dottore, who also is an English teacher at the high school. She has served as a Program Coordinator Site Visitor, and Assistant Director. Ms. Dottore will share details about the processes and procedures of the Pre-Professional Program with ESC NEO BAC members and the impact on students and business partners.
