ADVANCED SCHOOL THREAT ASSESSMENT TRAINING

COMPREHENSIVE SCHOOL THREAT ASSESSMENT GUIDELINES (CSTAG) LEVEL 3

**FOR MORE
INFORMATION ON
CSTAG
[CLICK HERE.](#)**

CSTAG Level 3 is a workshop for graduates who have completed full-day training.

Dr. Cornell designed this workshop in response to questions and problems that come up in CSTAG implementation. Each module provides key points to improve your team functioning and to address controversies in the field.

"I have been a School Resource Officer for 19 years. I found that collaboration is the best method to resolve school threats and student issues. This training is paramount to the safe operation of schools and the involvement of all the entire community needed to raise our children."
