

# COMMUNITY SCHOOLS SPONSORS/ OPERATORS NETWORK

The Community School Network offers a unique opportunity for sponsor and operator representatives from different community schools to come together and engage in meaningful discussions about the challenges and needs in education. Our learning objectives are customized to meet the specific needs of the participants. They will cover important topics such as the science of reading research, explicit instruction, Read Ohio & Ohio's Plan to Raise Literacy Achievement, leading literacy interventions, graduation requirements/ pathways, Career Technical Education, and Early Warning Systems. During our network sessions, community school leaders can share their success stories and best practices while identifying their specific needs and challenges. The network will allow open dialogue and foster collaboration to solve common issues in education. Additionally, our network offers an excellent opportunity for informal networking and relationship-building.

We look forward to welcoming Community School sponsors and operators to join our network in 2024-2025.
