

CONTENT AREA LITERACY

3 HOURS OF ASHLAND UNIVERSITY GRADUATE CREDIT

*2-Week Course:
June 10-14 and June 17-21, 2019*

Presented by: Andrew Pinney

It is imperative that all students develop literacy skills in order to learn and comprehend complex text. With the adoption of the Common Core State Standards, teachers in all subject areas—including science, social studies, mathematics, humanities, and technology—are finding

themselves actively involved in their students' literacy development, including reading, writing, speaking, and listening. In this course, you will learn literacy strategies that develop skills, make content relevant, and contain the elements of effective instruction—including differentiated instruction.

The focus of the course will be on Content Literacy Standards and discovering how content learning and literacy skill development can happen simultaneously in every classroom. By the end, you will be proficient with several literacy strategies, have multiple lessons planned for your upcoming school year, and be more confident in your ability to teach literacy in your content area.

Assignments will consist of outside reading and lesson planning that will be applied to your practice.

Andrew Pinney is an educator and consultant. After 14 years as a high school and middle school teacher he became a consultant both for the ESC of Northeast Ohio and Max Teaching with Reading and Writing. In that capacity, he has modeled in K-12 classrooms, in all content areas, in well over 100 school districts nationwide.

LOCATION:

Educational Service Center
of Northeast Ohio
Essex Place
6393 Oak Tree Blvd. South
Independence, Ohio 44131
