

CREATING S O L E WORKSHOP

S Self
O Organized
L Learning
E Environments

SOLE is an educational approach designed to promote inquiry and to foster self-empowerment in Self-Organized Learning Environments. SOLE focuses on the process of learning itself instead of simply focusing on the results. Sessions begin with a big question that leads to group investigation, online research, review of findings, and ultimately to presentations about discoveries. SOLE sessions in the classroom promote critical thinking and collaborative work among students that foster communication, inclusion, digital literacy, and educational innovation.

Learn SOLE techniques, investigate big questions, and consider implementation for your classroom with **Jeff McClellan**, founding director and CEO of STARTSOLE.

5.5 Contact hours will be awarded for full workshop participation.

Registration is required

Please choose ONE date to attend:

January 28, 2019

Or

February 20, 2019
