

# The Cross State High School Collaborative (CSHSC) Ohio High School Redesign Pilot 2022

## Virtual Information Session January 13, 2022 2:30 PM

### Who would be involved in the partnership and Ohio High School Redesign pilot?

The three main partners leading the Ohio High School Redesign pilot are the **Ohio Department of Education**, staff from the **Everyone Graduates Center at Johns Hopkins University**, and the **ESC of Northeast Ohio** pilot leaders, who will work directly with schools – the fourth and most critical partner. **High Schools** who choose to engage in this pilot will be a part of a second cohort of schools to go through this high school redesign framework in Ohio, but the first cohort to directly engage with ESC leaders as a key partner in the work.

**The Cross State High School Collaborative (CSHSC) Framework** is a positive future-focused framework organized around four key drivers that support high schools to directly influence and impact successful students' outcomes:

### Organizing Adults

Organizing teachers, administrators, partners, parents **AND** students daily interactions to leave them more satisfied, productive, supported, connected, and engaged.

### Students at the Center

Focusing high school redesign efforts on always keeping students at the center of their educational experiences.

### Teaching and Learning

Focusing on how to best stage and sequence teaching and learning to build the necessary teacher, leader, and student capacities in supportive and achievable manners.

### Postsecondary Pathways

Redesigning all students' postsecondary pathways to focus on high school as a beginning not an ending.

### Questions?

Paula Kucinic, Director of Professional Learning and Workforce Development, [paula.kucinic@escneo.org](mailto:paula.kucinic@escneo.org)
