

EVAAS dashboards offer dynamic, expanded, and intuitive analysis of Value-Added data. These sessions are free of charge. Individuals and teams are welcome and encouraged to include district leaders, principals, coaches, and enthusiastic teachers; registration is through the ESC Calendar of Events.

Foundations of EVAAS

This full-day session is an in-depth look into the two models used for EVAAS statistical analysis. This session will focus on building a conceptual understanding of growth versus achievement and using that as the basis in utilizing the multitude of EVAAS reports. The learning activities and explorations will utilize simulated data, this session will NOT emphasize actual navigation of the dashboard.

- Friday, September 15th 9:00 a.m. – 3:00 p.m. (*lunch on your own 11:30 a.m. – 12:30 p.m.*)

Interpreting EVAAS Reports

These sessions will guide participants in analyzing and interpreting their district, school, and teacher growth and achievement data using Value-Added, Diagnostic, Projection Summary, and the newly re-designed Student Reports. Time will be dedicated to exploring your current EVAAS data as well as making accountability connections with the progress component of the report card. School based teams are encouraged to include principals, coaches, and enthusiastic teachers.

Customized Learning Paths

Customized professional learning is available for individual districts and/or leaders; please contact the Director of Teaching and Learning kelly.stukus@escneo.org to schedule and/or discuss options.

Considerations may include:

Small Group Learning - An ESC Consultant can attend an administrative or building team meeting to provide facilitated guidance in a more personalized setting.

Individual Learning - An ESC Consultant can facilitate individual click-along tutorial sessions investigating your data. These can be scheduled at the ESC or on-site in your district.
