# About this Workshop!

## KEYS TO LEARNING - EXECUTIVE FUNCTIONING SKILLS

As parents and educators, our goal is to help student develop independent learning skills, so they can grow to become positive and productive adults. An essential component of this growth is the development of executive functioning skills - skills found in the "command" center of the brain, which helps us:

- Plan and Organize
- Exert Self-Control
- Initiate and Carry Out Purposeful Activities, and
- Exhibit Emotional Adjustment.

**Audience:** Teachers, Parents, Special Education Teachers, Administrators, Counselors and other Community Members.

**REGISTRATION:** [WWW.ESCNEO.ORG](http://WWW.ESCNEO.ORG)
