

Online Book Study For Educators of Gifted Students

January 25, 2023—March 2, 2023

***Emotional Intensity in Gifted Students:
Helping Kids Cope With Explosive Feelings, 2nd Edition***

by

Christine Fonseca

Audience: K-12 teachers, especially those teachers who need professional development hours to meet the operating standards to service gifted students

Districts are encouraged to register a group of teachers to collaborate in this online learning experience. Participants will earn 15 hours that can count for this year or upcoming years' requirements for teachers who serve gifted students.

Emotional Intensity in Gifted Students was designed as a reference for parents and educators to provide specific effective strategies in working with gifted children that respond to their social and emotional needs. The author explores myths and assumptions about giftedness, social-emotional development, and the intense nature of gifted children that present challenges. She highlights best practices based on research and provides case studies of student behaviors and response.

The book study sessions include readings, interactive discussion and sharing, reflection, and application of learning. Facilitators will help participants consider how to implement strategies into their current practice.

Course Overview

All Book Study Sessions meet via Zoom, 4:00-6:00 p.m.

January 25

Book Study Overview and Expectations
Introductions of facilitators and participants
