

# Content Literacy Through Google: Using Technology to Enhance Learning

## February 27, 2017

The research supporting content literacy-based instruction and the use of the timely feedback are undisputed. Many educators are looking to integrate Google into their instruction for creating and distributing assignments and providing feedback to their students in a timely fashion.

In this workshop, participants will integrate tried and true reading and writing strategies with Google technology. The instructors will also model several literacy-based strategies using Google in a way that enhances student engagement and incorporates timely and specific feedback.

**Presenters:** Amy Moore & Andrew Pinney, Curriculum Consultants, Educational Service Center (ESC) of Cuyahoga County

**Audience:** This workshop is for teachers, instructional coaches, assistant principals, administrators and other interested educators.

**Cost:**

\$50.00 per person  
(lunch is on your own)
