

Impactful Integration Network

2018-2019

Facilitated by : Stephanie DeMichele,
Instructional Coach, Educational Service
Center of Northeast Ohio

The Impactful Integration Network is a collaborative sharing and support group for area instructional coaches and technology integration specialists in Northeast Ohio who are passionate about advancing effective practices, supporting teachers, and making learning more engaging for students. We seek to make a true and meaningful impact in the digital lives of area learners. We start with the essential question (*How do we transform both culture and pedagogy when it comes to digital learning?*) and then use our time together to explore current trends, share-out best practices and innovative ideas from our own districts, offer practical solutions, and “play in the digital sandbox,” or take the time to try out the tech before taking it back to our colleagues. A collaborative book study will also be central focus for our network for this school year.
