

Incorporating Literacy in Our Math Classroom

October 27, 2014

Incorporating literacy into our Math classrooms seems like a difficult task. In this workshop, instructors will model classroom strategies that purposefully align to state standards and Mathematical Practices and incorporate literacy into Math instruction. Practices learned in this session will motivate students to be active learners, incorporate higher order thinking skills, and prepare teachers and students for expectations of our new standards.

Audience

K-12 Educators, Intervention Specialists and Academic Coaches
