

# Level Up Your Leadership

This is a cohort designed for current Assistant Principals/Deans of Students seeking to level up their instructional leadership capacity to ensure ALL students have direct access to equitable learning opportunities.

Join our ESC consultants and a cohort of assistant principals/deans in a five part series designed to level up instructional leadership. This is a great opportunity for assistant principals/deans to engage in a deeper understanding of the evidence based leadership practices that ensure ALL students have access to equitable learning opportunities. The cohort will consist of 25 leaders from across northeast Ohio.

Following each session, we will offer 30 minutes of optional support to guide resume design and review interview strategies. A final optional session is available for resume feedback and application of interview strategies. The goal of this additional support is to prepare those looking to take the next step in their leadership careers.

Dates	Times	Level Up Focus Topics
