

Facilitated by Teaching & Learning Consultants  
Jamie Smith & Daniela Stuckey

# LEVERAGING THE MASTER SCHEDULE

The master schedule is more than a logistical tool – it's a lever for **belonging** and **instructional coherence**. In this session, leaders will learn how to move beyond “fitting things in” to intentionally design schedules that reflect a school's values, priorities, and commitment to the success of ALL students.

Join **K–12 principals, assistant principals, and district leaders** for an engaging professional learning session designed to help you:

- **See** how the master schedule shapes belonging, access, and opportunity
- **Align** scheduling decisions with your building goals and student needs
- **Design** structures that prioritize collaboration and meaningful student experiences
