

Literacy Leaders Network

Join us for the opportunity to build relationships between districts with the goal of enhanced mutual learning. Through a “problem of practice” district teams in the network will learn from feedback, shared insights, reflection, new contacts and access to expertise.

We welcome District Teams from Comprehensive Literacy State Development Grant (CLSD) Districts, former Striving Readers Grant Districts and Districts/schools that desire to use literacy as a leverage for school improvement during the 2021-2022 school year.

Goals of the Network:

- Provide targeted literacy PD
- Goal Setting and Implementation
- Coaching and Support
- Networking
- Increase Student Outcomes

Audience: Cohorts of literacy leadership teams; this can include: all central office staff, teachers, coaches, building principals and assistant principals.
