

ESC OF NORTHEAST OHIO

Northeast Ohio Science Specialists

2025 - 2026

Meetings 8:30 AM - 3:30 PM

We are launching our 10th year of the NEO Science Specialists (NEOSS) Network at the ESCNEO in September 2025. We will host 6 meetings during the 2025-2026 school year. The meetings will alternate between full K-12 participation to meetings for 9-12 and K-8 Science educators. With over 40 school districts represented in the network, we hope to expand to include Science educators from new school districts not previously represented.

Participants in the NEOSS Network 10.0 will be engaged in reinforcing the key content from the core practices associated with Ambitious Science Teaching and Building Thinking Classrooms, our major focus topics for the last two years; grasping vertical articulation of disciplinary core ideas (DCIs), science and engineering practices (SEPs), and cross-cutting concepts (CCCs); deepening understanding of AI applications in Science classrooms; promoting outdoor learning experiences; discussing K-12 scope-and-sequence issues; evaluating resources using the ODEW HQIM rubrics; and meeting in grade-level or disciplinary breakout groups.
