Session Choices

iPad Intermediate - This session is for those who want to take their iPad to the next level and want to more deeply integrate the device with their teaching, work and learning setting. This workshop builds on the basic workshop and goes a few levels deeper into settings. This session starts with a quick review of the basics, and then move quickly to introduce new features in iOS7 and how to setup online backup through iCloud, etc. Included are also demos of various apps for productivity, task management, document workflow, and of course, fun!

Date: **September 8, 2014** (Monday)

Time: **1:30 - 3:30 PM**

North Coast Quality Collaborative: Using Technology in the Modern Workplace (Administrative Assts Session)

Date: **October 6, 2014** (Monday)

Time: **9:00 - 12:00 PM**

Google Apps for Education Rocks - This workshop introduces participants to the features of Google Apps and specifically, Google Documents. You will be introduced to the Google Apps Suite for Education and begin to explore how to create, edit and share documents with others through Google Docs. Ever try building a powerpoint with three other people? Creative ways of collaboration will be highlighted, and you will leave with multiple ways Google Docs can enhance your workflow at home, in the classroom or at the office!

Date: **October 6, 2014** (Monday)

Time: **1:00 - 3:30 PM**

Google Apps for Education 201 - This workshop builds on the Introduction to the Google Apps for Education 101. Participants will learn more advanced techniques including how to leverage the spreadsheet features with Google Docs and how to collect data easily using Google Forms. You will learn how to collect data using simple or complex surveys, and how to manage that data, compute simple statistics, and share the results with others.

Date: **November 3, 2014** (Monday)

Time: **9:00 - 11:30 AM**

Amazing Presentations - Tired of PowerPoint? Prezi lets you create amazing presentations that take you and your colleagues to a whole new level of presenting and learning. Easily incorporate images, videos and other media in stunning journeys - all on the web! Prezi is easy to use, and you'll be up and running in no time!

Date: **November 3, 2014** (Monday)

Time: **1:00 - 3:30 PM**

Hot Tools and Apps: The Latest and Greatest! - Join us as we explore and share some of the latest and hottest technology tools and Apps.

Date: **December 1, 2014** (Monday)

Time: **1-3:30 PM**
