

# NAVIANCE: Exploring a Regional Approach to College and Career Readiness

April 10, 2017

Naviance is a comprehensive K-12 college and career readiness solution that helps districts and schools align student strengths and interests to postsecondary goals, improving student outcomes and connecting learning to life.

## Participants will:

- Explore how a regional partnership approach to Naviance can strengthen alignment to state mandates: OSCES, Student Success Plans and Career Advising Policy
- Identify ways to save costs on Naviance implementation and training through a consortia approach and regional consulting workshops
- Learn approaches to increasing student engagement through a comprehensive K-12 college and career readiness platform.
- Facilitate self-directed exploration supported by a blended learning in-class curriculum to help students develop critical non-cognitive skills and instill the confidence needed to persevere and reach their long term goals.

Learn how Naviance can help students to get excited about postsecondary education while gaining college awareness, exploring majors, learning about admission requirements and other important knowledge.
