2014 Ohio International Baccalaureate Leadership Seminars

September 29, 2014
Middle Years Programme (MYP)

October 29, 2014
Career-Related Certificate (IBCC)

Ohio International Baccalaureate Leadership Seminars

International Baccalaureate (IB) certificate and diploma programs are recognized worldwide and in the U.S. for outstanding academic preparation and student achievement. Education leaders interested in the International Baccalaureate programs for middle through high school are invited to attend the information sessions that will be offered by the International Baccalaureate Organization (IBO) in collaboration with the ESC of Cuyahoga County.

Middle Years Programme (MYP)

The MYP framework presents an inquiry-based curriculum framework that prepares students for further study, the world of work, and for their future success. It develops authentic contexts for teaching and learning, creating an internationally-minded community in which students and teachers can thrive.

Career-Related Certificate (IBCC)

The IBCC framework allows students to specialize in, and focus on, a career-related pathway. Academic rigor and career-related studies provide practical approaches to learning and help students develop skills and competencies required for lifelong learning and careers.

You will learn about:

- The IB Programmes
- Connections to common core, college and career readiness, 21st century skills and competencies
- IB impact on student growth and achievement
- Teacher Professional Development
