

# OPES 2.0 Supports HQSD

## HQSD in OPES 2.0

The new OPES 2.0 rubric identifies five standards that lend themselves well to the use of high-quality student data. Within those standards, administrators are expected to make instructional and behavioral decisions using HQSD. This will require them to analyze data above and beyond the basic understanding level. Districts will be responsible for determining which two measures of HQSD administrators will need to use in order to provide evidence of student learning to support a final evaluation rating.

In order to support the analysis and utilization of data, the following training sessions are available.

## Who should attend this training?

- Building or District level Administrators
- Educators being evaluated or evaluating others using OPES 2.0

## What is the format of the trainings

- Each session will be a 2-hour virtual training through Zoom from 9:00-11:00AM
- Participants may select one or more sessions to attend based on the needs of the district

## What topics will be covered?

- **Value-Added (May 2 or 16)** - Participants will learn how to use all of the tools and resources that are available through EVAAS. Administrators will learn how to use trend data and projection data to place students, identify intervention needs, and assist teachers with their diagnostic results.
- **iReady (May 3 or 17)** - Participants will learn how to use iReady reports to identify student groupings, instructional needs of students, and assist teachers with their assessment data.
- **NWEA MAP (May 5 or 18)** - Participants will learn how to use all of the reports that are available through NWEA MAP. Administrators will learn how to use trend data and projection data to place students, identify intervention needs, and assist teachers with understanding their results.
- **PBIS/SEL data (May 6 or 19)** - Administrators will learn how to use multiple sources of behavioral data to make decisions that can affect academic performance. No specific program will be utilized during this session.

## Registration and Payment Information

- There is no cost for attending one or more of these virtual sessions.
- Be sure to register in advance through the [escneo.org Calendar of Events](https://escneo.org/Calendar-of-Events) to receive the Zoom link(s).

Contact Gretchen Lawn at [gretchen.lawn@escneo.org](mailto:gretchen.lawn@escneo.org) with questions. Participants will receive a welcome email containing the Zoom link at least 24 hours prior to training. The ESC of Northeast Ohio may cancel sessions due to low enrollment.

## Facilitation Options

ESC Educator Quality consultants can customize professional learning for your needs. Please contact [gretchen.lawn@escneo.org](mailto:gretchen.lawn@escneo.org) to schedule and/or discuss options. Customized professional learning experiences are available for standard consulting fees.
