

The One Needs Assessment is a comprehensive tool that provides the opportunity for districts and schools to focus on a few items of high impact for continuous improvement. The One Needs Assessment directs districts and schools towards creating a “focused plan” One Plan. All districts and schools that receive federal funding are required to use this planning tool to develop/revise their One Plan for FY24. The **One Needs Assessment Overview Sessions** will provide a general overview of the enhancements to the One Needs Assessment and One Plan, timelines, and root cause analysis resources.

.....

The One Needs Assessment Overview Session will highlight the following:

- The purpose of EdSteps, the One Needs Assessment, and the One Plan, and expectations/timelines for completion.
- The enhancements to the One Needs Assessment and One Plan platform.
- Considerations for data sources and format, team membership, timeline development to complete the One Needs Assessment and develop the One Plan.
- How to use a root cause analysis process as a necessary component of completing the One Needs Assessment.
