

OHIO LITERACY IMPROVEMENT PATHWAY

4-Day 2025 Professional Learning Series
February 10, February 23, March 11, March 23

Overview

This series is intended for teams of district leaders at the building and central office levels of local school districts. **Teams could include building & district literacy decision makers, with implementation teams to review and plan for integrity in literacy implementation.**

Improving literacy across a school or district requires clear and unified efforts. The Literacy Improvement Pathway consists of ten purposely ordered areas of focus and can be leveraged to improve student literacy outcomes.

Participants will gain an understanding of the critical importance of each stop on the pathway through a review of evidence-based practices, systems, and related resources to assist with leading literacy change in a school or district.

Join this important series as a literacy team, committee, curriculum team, or even as an individual who influences the path of literacy improvement at your site. We will explore, discuss, collaborate, and examine shifts in practices and systems that will impact student success.
