STRUGGLING LEARNERS SIMULATION

Seeing Struggling Learners Through a New Lens 2026-2027

Step into the shoes of a struggling learner in this powerful, hands-on simulation. Experience firsthand the frustration, confusion, and challenges students face when academic tasks feel overwhelming or inaccessible.

This immersive session goes beyond awareness—participants will engage in guided reflection and collaborative discussion to identify practical, evidence-based strategies and Tier 1 supports that can be implemented immediately to support all learners.

Both sessions offer the same simulation and debrief, then apply your learning in the afternoon by exploring high-impact instructional practices that improve outcomes for struggling learners.

Please register for and attend only your selected session.

ELEMENTARY FOCUSED SESSION OFFERING #1
