**Register Early—Space is Limited!**

Do you like to create?

Do you know what you need to bring your vision to reality?

Are there new things you would like your students to learn and to do and have a place to do them?

Want to share skills with others while learning new things?

If the answer is yes to these questions, then a Maker Space, Fablab, or Mobile Learning Space may be the answer for you and your students.

Join fellow educators on these learning excursions to discover the in and outs of designing collaborative lab or studio spaces where you and your students can create, think, share and grow using an assortment of materials and technologies.

**Audience**

Curriculum directors,  
principals, assistant  
principals, teachers librarians,  
media specialists, and  
other interested educators!
