

Vocabulary

Explicit Vocabulary Instruction Grades 4 - 8

Explicit instruction is systematic, direct, engaging, and success oriented--and has been shown to promote achievement for all students. This highly practical workshop will focus on designing explicit instruction by implementing the guided release of responsibility model and using strategies that elicit responses through active participation. Additionally, this session will provide an instructional routine for vocabulary development and offer ideas for different ways to build background knowledge. This workshop will give teachers in grades 4-8 the tools to implement explicit instruction in any content area.
