Ken Kay is the Chief Executive Officer of EdLeader21, a professional learning community for education leaders committed to 21st century education. Ken co-founded the Partnership for 21st Century Skills in 2002 and served as its President for eight years. Prior to his work on 21st century education, Ken served as Executive Director of the CEO Forum on Education and Technology.

The Assessment of 21st Century Competencies

The revolution of 21st century education will only occur if we assess what matters most. Many people observe that we will never teach creativity and other 21st century skills until we begin assessing them. Several schools and districts around the country have collaborated to define and assess these 21st century competencies. They have built rubrics to define creativity and other 4Cs skills, and are currently in the process of building a bank of performance tasks through which students can demonstrate their competencies. This engaging session will feature tools to assess the 4Cs (creativity, communication, collaboration, and critical thinking). Participants who attend will be provided access to the EdLeader21 Creativity Rubric, developed in collaboration with more than 75 EdLeader21 members and vetted by experts such as Project Zero at Harvard.

Audience: Individuals participating in Ohio's Innovation Lab (ILN) Network, Competency Based Education Initiative and by special invitation

Martha Holden Jennings Foundation

REGISTRATION: You must register for this event by August 2, 2016. Please either go to: www.esc-cc.org (choose professional development/calendar of events/August 5, 2016) or, click on the following link:
